

Huge brightness and convenience within reach

Do you need high brightness but only have minimal money to spend? The InFocus IN120a Series has that covered and a lot more.

These value-packed projectors are easy to buy and provide multiple ways to display your content -- even without a computer. Plus, their high contrast ratio and BrilliantColor™ technology display outstanding images and its lightweight design makes them easy to move or install.

(1280 x 800)
3500 lumens

Why choose the IN120a Series?

- Ultra-low purchase price
- Brightness of up to 3500 lumens
- Long life lamp of up to 7,000 hours lowers costs even more
- High 15000:1 contrast ratio
- Wireless connectivity with optional USB adapter
- Display over HDMI or USB
- PC-less display from USB drive or 2GB of internal memory
- Present Office docs, video, audio, photos and more wirelessly from your mobile device
- Blu-ray 3D capable (over HDMI)

Connectivity

VGA x 2
HDMI 1.4
USB-A
USB Mini-B
Composite Video

S-Video
RS-232
3.5 mm audio in x 2
3.5 mm audio out
Monitor out (VGA)

Low Total Cost of Ownership

The IN120a Series has not only a low purchase price, but also a lamp that can last as long as 7,000 hours, which lowers total cost of ownership even further. There are no filters to replace either. It's an unbeatable value.

High Brightness and High Contrast

The image quality of these projectors will not disappoint. 3500 lumens will give you bright, clear images with the lights on and the high 15000:1 contrast ratio adds sharpness with darker blacks and whiter whites.

Preset modes give you the best image quality on a beige wall, whiteboard, blackboard or other surface.

Easy Display from Any Device

Built-in apps and optional wireless adapter displays files from an Apple or Android notebook, tablet or smartphone. Or display from no device at all and project images, audio and video from the projector's on-board 2GB of memory.

Eco Blanking

Instantly dim the screen to divert your audience's attention onto you with the Eco Blanking feature on the remote control. Activate this feature when the projector isn't being used and lower the lamp's power usage down to 30%. This saves energy and significantly extends the life of the lamp, which saves you money.
