*2. Copyboards shown here with optional floor stands. M-12 Series Copyboards come with a wall mount kit. Floor stands and cubicle mount kits sold separately.

New Features for the PLUS M-12 Series Copyboards

Enhanced Security

To accommodate customers who desire to keep proprietary information from being accessed when the board is used in a common room or shared space, new security features have been added:

- A password to lock and prevent access to the board's settings.
- A setting to block access to the board's internal data from a PC.
- A setting to disable the use of a USB memory stick.
- A setting to disable the ability to print from the internal memory.
- The **Erase Reminder** feature, which reminds the user to erase any writing & drawing which may have been inadvertently left on the scrolled surface of the board.

Integrated "PLUS TOOLBOX" software

All of the settings and operations of the board can be easily accessed when using a connected PC. Simple "Plug&Play" recognition of the board means that the PLUS TOOLBOX menu automatically pops up on the PC screen when the PC and board are connected via a USB cable. This is an improvement from the previous software which required the settings to be adjusted model by model.

Header/Footer Function

This feature automatically adds company logos and identifiers to the printed or saved documents. Doing so helps keep meeting records organized and extends the utility of the documents.

PDF, JPG and PNG Support

PDF and JPG formats have been added to the previously supported PNG format. Now users have more options for the easy handling of image files for the purpose of printing, saving to a USB memory stick and saving to a PC.

Specifications		M-12S	M-12W	M-125	
BOARD	Board Surface Panel	W 51.2 x H 36.2 inches (1300 x 920 mm)	W 70.9 x H 36.2 inches (1800 x 920 mm)	W 51.2 x H 36.2 inches (1300 x 920 mm)
